Hey,

Sorry it's taken so long to get round to finally doing this. Problem is the bulk of the cost was printing which was also magic card money.

I've uploaded a pic of the receipt for pens, and then printing..

61 menus, and probably 5 failed ones.

Each menu had 1 cover and 6 sides printed doubled-sided.

So thats £0.05 + 6\*£0.05\*0.75 = £0.28

So..... 66\*£0.18 = £18.48

Then add the pens, £23.47?

Hope that's okay, I got the prices for printing off the college website,

Have a good Christmas!!

Selena
